

GOOD FLOOR PLAN

Seating your guests close to the stage - even if they are at an angle - creates better energy than having some of your guests far away from the performance.

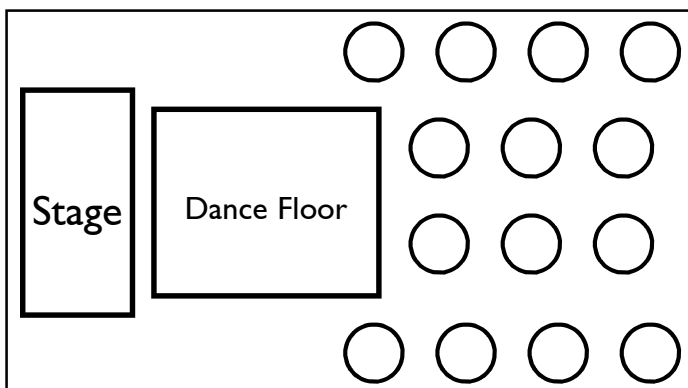

NOT AS GOOD

Although all of your guests will hear us quite well (we'll bring a great sound system), placing the stage on a "short" wall puts folks in the back at a disadvantage and they may feel less a part of the show.

POOR FLOOR PLAN

Watching our show across a large open space may be very difficult for many of your guests. ComedySportz thrives on the energy of our fans - sitting close to us is best!

GOOD FLOOR PLAN

(WITH DANCING)

Offering music following the CSz show with a DJ or band? Set the music area across from the ComedySportz stage if at all possible. We like to stay out of each others' way - and we're less likely to jump around near their equipment!
